Sodium Hypochlorite (SHC) : NaOCl

Sodium Hypochlorite is manufactured by UHDE, Germany technology.

EXCLUSIVE FEATURES

- Mercury free.
- Strong Oxidizing and Bleaching Agent.

APPLICATIONS

- Bleaching agent in Paper & Textile industry.
- Household Bleaching/cleaning applications.
 - Waste Water treatment
 - Oxidizing agent
 - Disinfecting agent
 - Sweating agent in Oil Refineries.
 - Food Processing

ADVANTAGES

- guaranteed minimum 60 gpl of Cl₂.
- Fairly stable in alkaline medium at room temperature.
- QCD is equipped with most modern instruments to analyze special tests also on request.

SPECIFICATIONS

No	Characteristic	Specifications		
1	Available Chlorine (as Cl ₂)Sodium	gpl	60.00	min.
2	Free Alkali (as NaOH)	gpl	5.00	min.
Caution: Chlorine gas is liberated at elevated temperature or if acidified.				

PACKING

- Transported through MS Rubber lined Tankers.
