

Product Specification Sheet

Product Name: Ethyl Acetate (GNFC)

Country of Origin: India

Product Specification:

Sr No.	Characteristics	Specification
1	Ester content as Ethyl Acetate	99.90 % min by wt.
2	Water	500 ppm max
3	Colour	10 APHA max
4	Acidity as Acetic acid	100 ppm max
5	Residue on Evaporation	20 mg/100ml . max
6	Specific Gravity	0.890-0.903 at 20 degree Celsius
7	Ethyl Alcohol Content	750 ppm max
8	Boiling Point	IBP-76 degree Celsius FBP-78.5 degree Celsius

Packing:

- HM-HDPE Drums (210 Kgs)
- Tankers

Applications of Ethyl Acetate

- Solvent in Printing inks
- Laminates
- Aluminium Foil
- Flavour in Pharmaceuticals
- Varnishes
- Perfumes
- Adhesives
- Pharmaceuticals
- Paints and Coatings
- Flexible Packing
- Pesticides
- Pesticides
- Nitrocellulose
- Synthetic Fruit Essence
- Photographic Films and Plates
